ABOUT COMPANY

Darshan Enterprise is a leading manufacturer and exporter of high-quality PVC solutions, including Soft PVC Garden Hose Pipes, PVC Braided Garden Hose Pipes, PVC Suction Hose Pipes, and PVC Profiles. Established as a proprietorship in 1991 at Metoda (GIDC), Rajkot (Gujarat, India). We have built a reputation for excellence under the visionary leadership of Mr. Narottambhai Patel. With over 35 years of industry expertise, we take pride in delivering products known for their robust build, superior quality, and exceptional functionality. We currently supply a wide range of hardware stores, wholesalers, and trading companies, meeting the evolving needs of our clients with efficiency.

We are committed to providing premium PVC pipe solutions at highly competitive rates. We invite you to experience our quality and look forward to the opportunity to serve your esteemed organization. Please feel free to contact us at your convenience for further information.

OUR VISION

At Darshan Enterprise, our vision is to provide best-in-class Soft PVC hose pipes that deliver long-term business benefits to our clients worldwide. While we hold a strong presence in India, we are committed to expanding our global footprint. We aim for significant growth by focusing on the Volume, Variety, and Value of our product line. By integrating the latest technology with premium raw materials, we ensure every pipe we manufacture offers excellent performance and high durability for our customers.

SPECIALITY OF OUR PRODUCTS

At Darshan Enterprise, We place paramount importance on delivering only top-tier products to our esteemed clientele. Our pipes are manufactured using high-grade raw materials specifically sourced from the most reliable suppliers across the country. Engineered for excellence, our products are designed to surpass extreme weather conditions, ensuring consistent performance and long-term reliability. It is this dedication to quality and durability that has made Darshan Enterprise a trusted name in the PVC industry

A close-up photograph of water spraying from a nozzle onto a dense thicket of green plants. The water is captured in motion, creating a blurred, dynamic effect. The background is filled with vibrant green leaves and small pink flowers.
